SHA Manager

Symphony Health was created to help customers dramatically improve their performance, productivity, and profitability by delivering high-value data, analytics, and innovative performance solutions using our unique data and research capabilities. Formed in 2012, Symphony Health offers the best in innovative research services for the life sciences industry. A pioneer in the physician-level targeting environment that pharmaceutical companies use today, Symphony Health provides strategic market data that analyzes the industry from the perspectives of providers, payers, and patients to a variety of private and public organizations.
